Unexplained Event Chart

Example chart for keeping records of unexplained events. Continue on back if necessary. Abbreviations/keywords help. Rate FEAR 1-5. Try to debunk. How resolved? What to measure? Of course you won't exaggerate anything, because you're looking for truth not just drama. =)

Unexplained Event Chart

Example chart for keeping records of unexplained events. Continue on back if necessary. First create a chart of baselines for when different variables are in effect. (day/night/weather/pets) Then note measurement levels as events happen. If you don't have all sensors, just do your best.
